Preserving seaweeds on paper is convenient and permanent. For example, seaweed specimens of Linnaeus (1707-1778) are still available for study at the British Museum.

Special watercolor or herbarium paper is immersed in seawater on a tray and the freshly collected specimen floated on it and arranged. After the water is drained off, the paper with seaweed is put into a press. It’s a tense moment when draining the water off the paper for fear that the specimen will drain off with it and the carefully arranged fronds clump together. The specimen has to be further arranged with water at specific places. Crumpled up wax paper to allow the water to soak through is placed on the specimen.

Society News

LIBS gratefully acknowledges donors. The society would not exist without support from its members and LIBS takes this opportunity to express sincere appreciation to the following members for their generous donations in 2022:

Eleanor Burns  Baruch May
Robert Chapman  Susanne McGuire
Leslie Moore Clark  Al & Irene Messina
Barbara H. Conolly  Margo Myles
Sue & Ken Feustel  Elizabeth Pessala
Douglas Futuyma  John Potente
Marie George  Timothy Purtell
Michael Goudket  Marie Ruffino
Andrew Grelle  Andrew Sabin Family Foundation
Joseph Grupp  Laura Schwano
Louise Harrison  John & Lynn Seirup
Peggy & Jack Horman  Gigi Spates
Donald House  Dava Stravinsky
David Kennedy  Lenore Swenson
Eric & MaryLaura Lamont  Kristine Wallstrom
Maureen Levine  Ray Welch
Lois & Allan Lindberg  Richard Wines & Nancy Gilbert
Mary Maran  Robert Zaremba

LIBS Life Members. One way members support the society is by becoming a Life Member. Such support keeps the society vibrant and able to achieve its goals. Please show your support of LIBS by becoming a Life Member.

Current Life Members of LIBS:  Eric & MaryLaura Lamont
Jim Ash  James C. Lendemer
Susan Avery  Lois & Allan Lindberg
Lillian Ball  Carrie Ann Lindstadt-Iurka
Kim Berlin  Mary Maran
Karen Blumer & Mike Madigan  Al & Irene Messina
Stephen Borghardt  Bill Miller
Victoria Bustamante  Gerry Moore
Joanne Cardinale  Enrico Nardone
Robert Chapman  Larry Penny
Leslie Clarke  Elizabeth Pessala
Regina Conlon  Planting Fields Foundation
Barbara H. Conolly  John Potente
Leon Dalva  Molly Nash Rouzie
Robert DeCandido  Andrew Sabin Family Foundation
Wei Fang  Seattuck Environmental Association
Sue & Ken Feustel  Vincent Simeone
Tom Fiore  Dava Stravinsky
Judith M. Fitzgerald  Taylor Sturm & Ally Beattie
Kathleen Gaffney  Lenore Swenson
April Gonzales  Guy Tudor
Andrew Grelle  Ray Welch
Louise Harrison  David Werier
Jane Jackson  Elettra Wiedemann
Ann F. Johnson  Stephen M. Young
Patricia Klein  Robert Zaremba
Many moons and low tides ago when I was a graduate student in Botany at the University of Chicago, I took a 12-week summer course in Marine Botany at the Marine Biological Laboratory in Woods Hole, Mass. As part of that course we took almost daily field trips to collect seaweeds by snorkeling and wading. We brought the study specimens back to the lab and pressed them. Therefore, each of us had a representative collection, a herbarium as it were, of the region. I went on to study Marine Botany for my Ph.D. at UC Santa Barbara and accumulated pressed specimens of California especially by scuba diving in the kelp bed. For two summers during that time I worked as a research assistant for Isabella Abbott at Hopkins Marine Station of Stanford University in Pacific Grove. We met every low tide and pressed the seaweeds to establish the collection described in the definitive book by Abbott and Hollenberg, “The Marine Algae of California,” known affectionately as Big Mac. Throughout the rest of my research and teaching at the University of Puerto Rico and Southampton College (now Stony Brook University) in New York, I expanded my herbarium. Upon retirement I contributed it to Roger Williams University in Rhode Island. I continue to press seaweeds as a hobby. I do so with greater care so they can be better appreciated for their aesthetic qualities.

During the years Larry was a professor at Southampton College (1976-2005) it had a nationally recognized marine science program that produced an unprecedented number of Fulbright awards and an impressive number of alumni (including some of Larry’s former students) who went on to careers in prestigious universities and research centers.

Larry has been a member of LIBS since 2008 and has written several articles on Long Island seaweeds for the newsletter, presented talks, and led field trips before retiring to Santa Barbara, California in 2016, a few months after attending the LIBS 30th anniversary trip to the Sierra Nevada Mountains, California.

1st post-Covid LIBS BBQ

June 13, 2023 (Tuesday) 5pm. Meet at the Seatuck Environmental Center (Scully Estate), Islip, Suffolk Co. Salads, desserts, etc. are gladly accepted but please join us even if you can't bring something, we always have lots of extra food! The below photos are from the June 8, 1999 LIBS barbeque at the Bill Paterson Nature Center, Muttontown Preserve, Nassau Co. Photos and "quotes" in the below caption by Barbara Conolly.

UPCOMING EVENTS

June 3, 2023 (Saturday) 9am
Field Trip to Forest Park, Queens Co.
Trip Leader: Mike Feder
Designed by Frederick Olmsted in the 1890s, Forest Park is the third largest park in Queens. We will visit some oddball plant populations as we walk through the Northeast section of this park. The walk will last approximately 3 hours. Register with Bob Chapman (bob.chapman516@icloud.com) and more details about the trip and directions to the meeting place will be sent.

June 3, 2023 (Saturday) 10am
Field trip to Hallock State Park Preserve, Northville, Suffolk Co.
Trip Leader: MaryLaura Lamont
Joint field trip with the North Shore Land Allience. Register with MaryLaura Lamont (marylaura.lamont@parks.ny.gov) and more details about the trip and directions to the meeting place will be sent.

June 13, 2023 (Tuesday) 5pm
1st post-Covid LIBS BBQ:
Meet at the Seatuck Environmental Center (Scully Estate), Islip, Suffolk Co. Salads, desserts, etc. are gladly accepted but please join us even if you can't bring something, we always have lots of extra food! For planning purposes please email Eric Lamont if you'd like to attend.

June 17, 2023 (Saturday) 10am
Field Trip to Muttontown Pinetum, Nassau Co.
Trip Leaders: Al and Lois Lindberg
Register with Bob Chapman (bob.chapman516@icloud.com) and more details about the trip and directions to the meeting place will be sent.

August 5, 2023 (Saturday) 10am
Field Trip to Oyster Pond, a coastal salt pond community, Montauk Point State Park, Suffolk Co.
Trip Leader: Vicki Bustamante
Joint field trip with the New York Flora Assoc. Register with Vicki Bustamante (vickibustamante@gmail.com) and more details about the trip and directions to the meeting place will be sent.

September 23, 2023 (Saturday) 10am
Field Trip to Oyster Pond, a coastal salt pond community, Montauk Point State Park, Suffolk Co.
Trip Leader: Victoria Bustamante
Joint field trip with the New York Flora Assoc. Register with Vicki Bustamante (vickibustamante@gmail.com) and more details about the trip and directions to the meeting place will be sent.

October 12, 2023 (Thursday) 6-9pm
1st post-Covid LIBS Member's Meeting
Speaker: Dave Taft, Topic: Wild Orchids of Long Island
Meeting Place: Syosset Public Library, 225 South Oyster Bay Road, Syosset NY 11753.
From 6:15 to 6:45 we will have social time followed by a short business meeting. The talk is scheduled to begin at 7pm. The library was so pleased to host LIBS that the talk will be open to all residents of the Syosset school district and will be presented in the auditorium.
